

Clay Pad

The clay pad is a time-saving alternative to clay due to its machine use and is suitable for both dual action and eccentric polishing machines. This allows large paint surfaces to be cleaned in a particularly simple manner. The reusable pad has a diameter of 150 mm / 6 inches and is designed for all common polishing machines due to its Velcro backing.

page 1 of 1

Areas of use

For mechanical removal of tar, resin, insect residues and other stubborn residues from painted surfaces.

Recommendations for use

Can be used in combination with the Clay Spray. After use, rinse with water and remove the dirt.
