Copo Star BMP V

The highly concentrated, phosphate and NTA-free, alkaline, high-foaming pre-cleaner for car and truck pre-washing to remove insects, bird excrements, environmental, engine and rim soiling. Special corrosion inhibitors ensure high material compatibility with sensitive components such as anodized aluminium. Also optimally suited for biological process water treatment plants. With Daimler approval. VDA-compliant class A: exposure time max. 5 min, max. application concentration 1:5. The VW approved version of Copo Star BMP-T.

Areas of use

Cars, commercial vehicles, construction machinery, steel rims and alkali-resistant painted aluminium rims.

Recommendations for use

Depending on soiling: Pre-cleaning: 1:10 to 1:50. Rim cleaning: 1:2 to 1:8. Engine: 1:5 to 1:10. Apply to the entire surface, allow to act briefly and rinse thoroughly with a high-pressure cleaner. VDA-compliant Class A: Application time max. 5 min, max. application concentration 1:5
