

Plast Star silicone-free

page 1 of 1

Silicone oil-free premium product in the area of plastic care products. Maintains and protects over months and is extremely UV-stable. The treated parts regain their original new semi-matt appearance thanks to a special care components system (micro-emulsion), which bonds firmly with the treated surface. Stops door seals from freezing. The extremely long service life, fast and simple use and a pleasant fragrance make Plast Star siliconölfrei into an unbeatable product. Optimally suited for tyres and rubber parts as well. With Daimler approval.

Areas of use

External plastic and rubber parts, tyres, door seals, etc.

Recommendations for use

Use a sponge to apply evenly to the clean, dry surfaces, rub in thoroughly and leave to dry completely.
