

Polisher Holder

Holder for polishing machines

The store equipment not only makes it easy to organize your products and therefore work more efficiently, but also enhances your own shop with a modern, uniform KCX design. The Polisher Holder enables the space-saving mounting of polishing machines. The opening in the lower part of the polisher holder allows cables to be optimally stowed away. Suitable for eccentric and rotary polishing machines with a plate diameter of up to 180 mm/ 7 inch, the side cutouts are suitable for small polishing machines. The product is made of 1.5 mm thick galvanized, powder-coated metal.
