

Shield & Gloss Wax

Premium protection wax with high-gloss additives

page 1 of 1

The premium conserving wax with high-gloss additives and long-term care effect. The unique composition of the care components ensures an extreme deep gloss, long-term hydrophobicity (beading effect on paint, glass and plastic) and velvety soft feel. The fruity cherry scent provides an intense fragrance experience. The protective layer formed on the vehicle by the Shield & Gloss Wax covers small scratches. In the event of rain, it also ensures good visibility through a rapid drip on glass surfaces. The protective effect of the premium conserving wax prevents fading and embrittlement of plastic parts and impregnates convertible roofs. Regular application contributes significantly to maintaining the value of the vehicle. The application results in spontaneous cracking and microbead-free drying. The formation of undesirable deposits in the pipe systems is reduced. The highly concentrated formulation allows extremely economical product use. Suitable for all biological service water treatment systems. VDA conform to class A.

Areas of use

Gantry washing systems, wash systems, self-service car washes

Recommendations for use

Recommended consumption per car: Cold wax / foam wax: 8-12 ml. Premium wax: 12-16 ml.

Container

Container	Item no.
10 L	462010
20 L	462020

pH-value: 4,5

Warnings

Protect against frost and excessive heat.
